

## Experience the difference

---

Bermocoll® EBM 10 000  
key performance advantages:

- High viscosity, highly efficient
- Outstanding enzyme resistance
- Especially appreciated in high PVC formulations like joint compounds, distempers, putties and textured paints due to good compatibility with fillers
- Excellent storage stability

## Your partner in essential chemistry for a sustainable future

---

Performance Additives is one of the businesses within the global company Nouryon. We have a unique technology base and profound experience in the production of high quality cellulose ethers, with more than 50 years of development, manufacturing and sales of Bermocoll®. Today, we serve our customers in more than 80 countries.

Our research and product development has always been guided by our customers and their requirements. We strive to be the most reliable and dedicated supplier of cellulose ethers to the water borne paint industry.

## Bermocoll® EBM 10 000

Reliable, efficient and renewable

# Outstanding efficiency with excellent enzyme resistance

Our unique and well-proven Bermocoll® EBM 10 000 grade offers outstanding efficiency with excellent enzyme resistance.

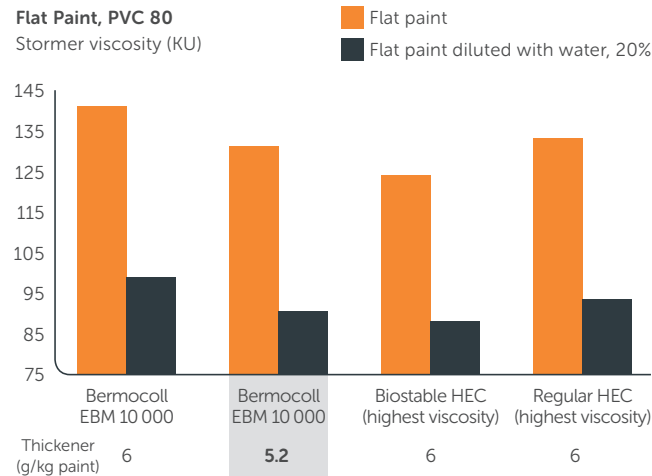

Bermocoll® EBM 10 000 is a high viscosity product with enhanced stability. This unique product is especially appreciated in high PVC formulations like joint compounds, distempers, putties and textured paints due to good compatibility with fillers. Bermocoll® EBM 10 000 is versatile with respect to compatibility with different kinds of binders, and the paints formulated are stable even when stored at elevated temperature.

**Viscosity 1% in water solution**  
Bermocoll® EBM 10 000, 10 000–15 000 cP\*

\*1% water solution Brookfield LV 12 rpm 20°C

## Efficient thickening and good stability

Bermocoll® EBM 10 000 achieves higher Stormer than high viscous HEC products commonly used, when using equal dosage. Using Bermocoll® EBM 10 000 the amount of thickener can be reduced 10–15% vs. conventional high viscous HEC products.

## Unique enzyme resistance

Bermocoll® EBM 10 000 is specially developed to meet the demand for a high viscous thickener with an excellent stability against enzymatic attack.

\* Viscosimetric determination of the resistance to enzymatic degradation in 1% water solution

# Committed to sustainability and innovation

We're committed to making our products and operations more sustainable. As well as driving our own success, putting sustainability at the heart of everything we do means that our customers and employees – not to mention the planet – will also benefit.

It's all about creating more value from fewer resources

Backed up by our commitment to Product Stewardship we believe that supplying the right chemistry goes beyond just selling products.

Our efforts have been rewarded. The ISO 9001, ISO 14001 and OHSAS 18001 certification awarded for innovation, purchasing, operations, marketing and distribution of Bermocoll® are only the first steps on the road to fulfilling our ambitions – to meet customers' request for competitive, environmentally sound, and profitable products today and for the future.
